Netclan Explorer UI

The two screenshots show the following screens:

- Refine**: A search refinement screen with fields for "Select Your Availability" (Busy | Do Not Disturb | Will Catch Up Later), "Add Your status" (Hi community! I am open to new connections 😊), "Select Hyper local Distance" (1Km to 100Km slider), "Select Purpose" (Coffee, Business, Hobbies, Friendship, Movies, Dining, Dating, Matrimony), and a "Save & Explore" button.
- Explore**: A search results screen for "San Francisco, California" showing three profiles of "Michael Murphy" located "within 1 Km". Each profile includes a photo, name, location, and a "+ INVITE" button.
